Technical Projects

Capstone Project - Skopos 🛚

Co-Creator, Software Engineer

August 2022 – present Seattle, WA

Created Skopos, an open-source API monitoring tool designed for testing multi-step API workflows and running multiple tests in parallel.

- Designed, prototyped, and built key features such as definition, execution, and scheduling of Skopos API monitoring tests using Typescript, GraphQL (Apollo), and the AWS CDK (EC2, ECS, EventBridge, Lambda, RDS, S3).
- Implemented execution of collections of API tests using Node-based state machines, enabling testing of multi-step API workflows (TypeScript, XState).
- Contributed to implementing parallel execution of collections of API tests using multitenant EC2 instances hosting containers with ECS, resulting in faster completion of tests and auto-scaling of test execution (TypeScript, XState, Docker, EC2, ECS, ELB).
- Contributed to the creation of the Skopos front-end GUI leading to having an intuitive UI/UX (TypeScript, React).
- Worked with a remote team of engineers during sprints to make key design decisions (Agile Workflow).
- Co-authored and presented a technical case study exploring Skopos's design: https://skopos-api-monitoring.github.io/

Launch School 2021 – 2022

Attended Launch School, a mastery-based software engineering program focused on learning fundamentals. Developed open-source web applications using technologies such as JavaScript, PostgreSQL, HTML, CSS, and React.

Selected Projects:

- WireSnoop A RequestBin-like application for receiving and inspecting HTTP webhooks (Node.is, React, MongoDB, PostgreSQL, Digital Ocean Droplet, Nginx)
- Contacts A contacts manager app (Node.js, Express.js, PostgreSQL)
- AirRouter An app to filter and display info about routes flown by several large airlines (Node.js, React, Redux)

Professional Experience

Police Officer2018 – 2019City of SeattleSeattle, WA

Patrolled as part of a squad and responded to emergencies, performed community outreach, conducted detailed investigations, and wrote extensive incident reports and legal paperwork.

Public Safety Officer2012 – 2022Various CompaniesWashington

Performed public safety and security patrol duties for a variety of companies.
